

FoodPharma™ UltraChews

BRING MORE FUN TO FUNCTIONAL

FoodPharma™ UltraChews offer consumers an enjoyable, fast and efficacious dose of supplements, botanicals and pharmaceutical-grade actives in a single bite. Our skilled R&D team uses cutting-edge technology to create a functional delivery system that has a smooth outer shell and a soft-and-chewy center, customized with your chosen nutrient complex of vitamins, probiotics and herbs.

Customized for your brand

Tailor these delightful chewables to fit your customers' dietary needs. Popular options include:

Nutrition

- High-fiber
- Non-GMO
- Organic
- Vegan

Functions

- Blood sugar control
- Digestive health
- Energy boosts
- Immune support
- Weight management

- **Unmatched taste & texture:** Customize profiles that consumers love, complete with a smooth, unchalky mouthfeel.
- **Flexible functionality:** Add your choice of attributes as "supplement facts" or "nutrition facts."
- **Modern Craftsmanship:** Align with today's consumer demands via advanced, whole food ingredients.

Packaging Perfected

UltraChews are packaged safely and securely. Choose from a variety of flexible options, such as a bottle or a zippered pouch, each optimized for advanced shelf stability and consumer convenience.

Swiftly Specialized

Our QuickLaunch™ process streamlines development by leveraging a vast library of proven, shelf-stable scientific formulas. You get a custom formula fast, delivered in a high-active dose with greater formulation range.

From the leader in plant-based nutritional delivery systems

With 100+ years in traditional confections and a legacy of confectionery innovation, FoodPharma is the premier partner for delivering on both taste and functionality.
